Belgium Saved From a Bloody Revolution.

UNIVERSAL SUFFRAGE GRANTED

The Greatest Enthusiasm Displayed Everywhere Over the Great Triumph Achieved by the People—No Further Rioting Expected—Strikers Returning to Work—Other Foreign News.

BRUSSELS, April 19.—The chamber of representatives reassembled after the preparation of the reports on the revision of the constitution, and by a vote of 119 against 12, with 14 abstentions from voting, adopted universal suffrage, with a provision for plural voting by the classes owning property according to the amount and situation of the property.

Cheers within the chamber were followed by prodigious acclamations from the enormous crowd that awaited the result of the voting outside the chamber. The greatest enthusiasm was displayed everywhere, and the people joined in a jubilee in honor of the great triumph which they had achieved.

It is expected that the decision in favor of universal suffrage will have an allaying effect upon the popular excitement and agitation, which had been rapidly assuming the dimensions of a general insurrection.

The dread of a terrible uprising of the people, similar to that of the French revolution in its resistless rage against privilege and power, had the effect of bringing the chamber of representatives around to the popular side. There is no doubt in many minds that had the chamber not acted promptly there would have been a revolution in Brussels.

In view of the action of the deputies the labor leaders have resolved to advise the abandonment of the general strike. At the same time they decided to issue to the people a manifesto against the Nyssen bill, which proposes the combination of plural voting and universal suffrage. The leaders will urge the people to follow up their victory by agitating unceasingly for universal suffrage pure and simple.

The end of the riots is believed to be near. The decision of the labor leaders to abandon the strike has produced a general feeling of relief. The police have worked night and day and are completely exhausted. Were the strikes and riots to continue a few days more, preservation of order would be left entirely with the military, as the police could not endure the strain 48 hours longer.

At meetings of strikers in and around Ghent resolutions in favor of resuming work at once were passed.

Two men injured in the Mons riots died yesterday evening. Altogether seven men have died in Mons of injuries received in the suffrage riots.

The most serious disturbance that occurred yesterday is reported from Bourghout, a village a short distance from Antwerp. Many candlemakers are employed in the village, and a majority of them have joined the movement in favor of universal suffrage. Those who remained at work were attacked by the strikers, and the troops were called upon to protect the workers and restore order.

The appearance of the soldiers had little effect in quelling the riot, and the orders to the rioters to disperse met with no attention. The strikers continued their attacks upon the "blackleg" as though no troops were present. The officer in command of the soldiers ordered his men to fix their bayonets, and then followed the order to charge.

On a full run, and with leveled bayonets, the soldiers charged upon the rioters and drove them away. Four of the strikers, however, were killed, and 15 others received more or less serious bayonet thrusts. It is certain that some of the wounded will die. Great excitement prevails in the village, and the strikers threaten vengeance for the death of their comrades. Here, as in other parts of the country, the men are in many instances spurred on to riot by the women.

Prospect of a Settlement at Hull.
HULL, April 19.—There is a prospect that the strike will be speedily settled. The intermediary president of the board of trade held a consultation in the house of commons with the representatives of both sides engaged in the controversy. Certain proposals were favorably considered by the gentlemen, and they expressed hopes that a settlement would be arrived at.

Work commenced as usual at the docks at 7 o'clock, the men obeying instructions in commencing their work as ordered.

At St. Catherine's dock the men ignored the notice to stop work, and when the gates opened there not a single man refused to betake himself inside. There is, however, plenty of work to be had for the asking.

Heavy Fire Loss.

STOCKHOLM, April 19.—The immense Ljushovna sawing works, at Soederhamn, in the Laen of Ceale, on an inlet of the Gulf of Bothnia, have been destroyed by fire. The flames spread with great rapidity, communicating to the wharves and a number of lighters, and these also were destroyed. The loss amounts to 3,000,000 kronor (about \$600,000). All the Swedish and several foreign insurance companies are involved in the loss.

Palace Burned.

BERLIN, April 19.—Fire did an immense amount of damage in Hohenzollern palace at Sigmaringen. The palace is on a high rock on the Danube and it was difficult to get water to that height.

Part of the structure known as the Furstenbau was gutted. A great number of priceless works of art were burned.

Returning to Work.

HAMBURG, April 19.—Firemen and coal trimmers in this city decided to end the strike and return to work. The vote on the question stood 173 in favor of terminating the strike to 159 against it.

One Hundred and Twenty Houses Burned.

BUDA-PESTH, April 19.—The village of Jaszladany has been visited by a most disastrous conflagration. One hundred and twenty houses were destroyed and two persons killed.

THE PLOT FAILED.

Paycar Derailed for the Purpose of Robbery.

BRAZIL, Ind., April 19.—This city is in the throes of great excitement over the report that several highwaymen attempted to wreck the Chicago and Eastern Illinois paytrain, two miles north of here on the Chicago and Indiana Coal railroad. The engine, running at a high rate of speed, was thrown from the track and dashed along for half a mile pell-mell on the ties before it could be stopped. The engineer, however, kept his hand on the throttle and succeeded in bringing the train to a standstill in the middle of a big trestle.

The road is absolutely smooth where the accident occurred and it is claimed that a heavy piece of iron laid across the rail by some miscreant did the work. The wreck occurred on a high and dangerous grade and it is a miracle that the train was not hurled down the embankment. Trainmen refuse to talk about the affair until a thorough investigation is made. Had the train gone over the embankment no doubt it would have been robbed of the vast wealth.

Three Acres of Buildings Burned.

DENVER, April 19.—Three acres of buildings on the Windsor farm, six miles from the city, were destroyed by fire, causing a loss of \$40,000, which is covered by insurance. It was with considerable difficulty that the 300 head of thoroughbred animals in the barns were saved. Had the Holstein herd, said to be the finest in America, been burned, the loss would have been \$200,000. The property is owned by William H. Bush, proprietor of the Brown Palace hotel.

Entire Town Burned.

CASSVILLE, Mo., April 19.—Every business house in the town, including two banks and two local newspapers, has been destroyed by fire. Loss, \$200,000; total insurance not over \$80,000. There is great suffering among the citizens. Cassville is the county seat of Barry county. The origin of the fire is unknown.

Hotel Destroyed by Fire.

CLARE, Mich., April 19.—The Exchange, the oldest hotel in this city, was destroyed by fire. So quickly did the flames shoot through the building that it was with difficulty the sleeping inmates were rescued. Orva Alger and William Lonaine were seriously burned about the head, face and body. Loss, \$5,000.

Croaker Owns Longstreet.

NEW YORK, April 19.—Longstreet, the greatest horse since the days of Salvo, is now the property of Richard Croker, Tammany's big chief, and will wear the Yale blue and gold tassel. The price is said to have been \$25,000.

HE WAS INNOCENT,

But Preferred Death to the Disgrace of Arrest.

MUNCIE, Ind., April 19.—Charles Williams has just arrived here from Anderson and says that subsequent developments in the case go to prove that "Rickle's" McCallister of Anderson, who blew out his brains with a revolver because of being charged with stealing money packages from the express company, was driven to desperation by the detectives, though innocent of any crime.

One of the packages, containing \$575, alleged to have been taken by McCallister, has turned up all right, and there are rumors that others can be accounted for. The company had no evidence on which to convict the accused and it is believed that the humiliation of being arrested on a serious charge caused him to commit the rash act.

Unknown Dead Man Found.

BUCKEYS, O., April 19.—An unknown dead man was found in an unused barn on the Wilson farm, near the city. In his pockets were letters addressed to E. T. Edward Loeschman, one of them being from his brother Robert in Friedland, Germany. The man was about 50 years old, had black hair and whiskers and was about 5 feet 6 inches in height. Some papers on his person, written to foreign ministers, would indicate he was insane. An examination by the coroner showed he had been dead several days and had probably died from natural causes.

General Exodus of Senators.

WASHINGTON, April 19.—The adjournment of the senate has been followed by a general exodus of senators from the city and the Capitol building has a very deserted look. A number of senators are hidden in their rooms behind locked doors attending to correspondence and seeking to avoid visitors and office-seekers. A number have arranged to witness the naval review and will leave this week for the rendezvous. Others are preparing to depart on the various investigating trips that were ordered during the closing hours of the session.

Burglars Make a Good Hunt.

MANCHESTER, O., April 19.—During last night burglars entered the store of George M. Wilkinson, the leading jeweler of this city, and completely gutted it. They cracked the safe and secured its contents, consisting of over 250 gold watches, a large quantity of diamonds and other valuable jewelry, together with a considerable amount of money. It was the largest and most complete job in the history of this county. The total loss is estimated at over \$5,000. There is no clew.

Long Journey for Children.

RICHMOND, Ind., April 19.—Willie Maxham, aged 13, and his 9-year-old sister have arrived at their old home in the village of Boston, having traveled from Spokane Falls, Wash., begging their way and occasionally receiving "lifts" from railroad men. The brave pair had \$10 when they started and \$1.75 when they finished their journey. They went west with their father last summer, but he died, leaving them penniless. They began their trip Feb. 10.

Very Much Agitated.

LIMA, O., April 19.—An agitator at the High Explosive company's nitroglycerin factory blew up. Clark Robinson, the maker, was instantly killed and half of Ben Dow's face was blown off. He is still alive, but it is not thought that he will recover. They were the only ones in the factory at the time, and Robinson was driving a plug in the agitator, when he struck it too hard and it went up. The building was but little damaged.

She Wants Damages.

NELSONVILLE, O., April 19.—Mrs. Nancy Stack, through her attorneys, Grosvenor & Jones, has filed a suit in the Athens county court of common pleas against the Columbus, Hocking Valley and Toledo Railroad company, for \$10,000 damages, sustained in the death of her husband, Yardmaster John Stack, who was killed at Orbiston while coupling cars last winter.

JUDGE S. E. DeHAVEN, of Oldham County, is said to be a prospective candidate for Governor. In this connection General P. Watt Hardin, Colonel John F. Hager and Secretary of State John W. Headley are also spoken of as prospective candidates. Northeastern Kentucky will no doubt be solid for Judge Hager.

Says the Courier-Journal: "Harrodsburg too, is talking of a canning factory. The canning factory is becoming a popular enterprise in Kentucky, and if half that are now in the shell should safely hatch out there will be a great boom among the farmers and gardeners in corn, tomatoes, fruits and garden products of all sorts." The canning industry has grown wonderfully in late years, and the Manufacturers' Record, of Baltimore, says there is ample room for still greater development.

SOME papers never get tired repeating lies and false reports about Rev. Sam Jones. The Frankfort Capital is one of them. A few days ago some imaginative or maliciously-minded correspondent sent out a special from Glasgow, telling how indignant the people were at that place and in Bowling Green because Mr. Jones, according to the special, had insulted a committee of ladies who called on him for some charitable purpose. Mr. Jones was at Eminence the next day and denounced the special as a lie out of whole cloth, and the Bowling Green Times says no indignation was created there, and that the statement that Mr. Jones denounced Glasgow people was "as false as false can be." But notwithstanding these denials, here comes the Frankfort Capital denouncing Mr. Jones for his "rudeness," and wanting somebody to "cowhide" him. It remains to be seen whether the Capital will publish the Times' denial and Mr. Jones' statement about the Glasgow affair.

For the Farmer.

William and Joseph Huber, living near the mouth of Lawrence Creek, have sold their crop of tobacco amounting to about 20,000 pounds to a Ripley buyer at 10 cents.

N. H. Richardson, of Jersey Ridge, sold his crop at 8 1/2 to Mr. Moore of South Ripley.

A hog on the ranch of Jule Gunter, near Gainesville, Texas, is said to be one of the largest in the world. It is a Poland China hog, and is reported to weigh 1,420 pounds. It is 3 feet 4 inches high and 7 feet 2 inches long.

Jeffreys Lewis.

The initial appearance of the society actress Jeffreys Lewis and her superb company of players is no doubt looked forward to with unusual interest. She is said to be a genius on the stage, an artiste in a line of specialties really without a successful rival, brilliant, passionate, fascinating, commanding. "Society's Half World," a dramatization of Dumas' celebrated novel "La Demi Monde," is the play which will serve to introduce her to Maysville theater-goers, and a rare dramatic treat is promised. Under the title of "The Crust of Society" this play enjoyed an immense success in New York. Saturday evening, April 22, is the date here. Tickets on sale at Nelson's.

County Court.

John Stewart, overseer of roads in district No. 1, Justice's precinct No. 1, resigned, and William Williams was appointed in his stead.

Grant Hines was called to Cincinnati on business last week.

Tom Carr, of Cove Dale, will move to town in the near future.

Dick Hinton, of Maysville, is visiting his sister, Mrs. W. R. Burns.

There was an interesting item in THE BULLETIN some time ago from Germantown, as to the product and profit of the cows belonging to a lady in that neighborhood. Your correspondent has a cow from which, since September 21, 1892, has been sold \$52.50 worth of milk and butter, besides the family supply. The calf, when nineteen days old, sold as a veal for \$7.50, making \$60 in all, and in all that time the family (of three) have never eaten a meal without milk and butter. It pays to keep a good cow, even in Concord.

PLEASANT RIDGE, MASON COUNTY.

Greens and fish are plentiful.

Jailer Kirk, of Maysville, was doing these parts last week.

Miss Annie Gault, of Washington, visited Miss Cumble Crawford, of Kennard Saturday.

Henry Walker delivered his crop of tobacco to Johnson, of Murphysville, Thursday.

Mrs. Fleming, mention of whose illness was made some weeks past, is slowly improving.

Our enterprising tobacco merchants, S. E. Martin and J. S. Reeves, purchased about 30,000 pounds of tobacco the past week at an average of 8 cents per pound.

Perhaps some of the readers would like to know something about the much-talked-of place called Pleasant Ridge. In the first place allow me to say that our community, like a great many other communities, is blessed (?) with all kinds of people; the wise and the ignorant; the goodly and the ungodly; and those who can not very well be classified on account of "age, sex, race or previous condition of servitude." Consider our public school, and notice the many obstacles thrown in our teacher's way. For instance, what would please one causes another to wear a knock-you-down look for many days. And further still, if the teacher enforces his rules, regardless of consequences, then the old women will be heard from, and will take their children from school and no doubt allow them to grow up as ignorant as their grandfathers before them; and some of the heads of families will take their children from school because some "crank," who is not worthy of being called a man, has said that he believes that the teacher is "struck" on one of the girls. This is not quite all. Some of our families keep their children away from school because the trustees didn't employ the teacher that they wanted. Another thing still, if the teacher doesn't "knock down and drag out," then the trustees will be ready to say "he ain't doin' his duty." So what is the chance for progress toward higher civilization under such circumstances? There should be a law requiring parents to send their children to school.

TILTON, FLEMING COUNTY.

W. H. Means, of Maysville, was in town Friday. George C. Keith, of Maysville, called on our business men Friday.

Mrs. G. T. Paxton, though very feeble and in a critical condition, is thought to be somewhat improved.

THE MARKETS.

CINCINNATI TOBACCO MARKET.

The past week has been probably the most successful in the sales of tobacco during the present year. There was an evident anxiety on the part of buyers, to make purchases, and the advance in prices, which took place in consequence, was shared by nearly all grades, both old and new. An offering of a considerable lot of fine old stock at the Morris Warehouse created much attention and helped to stimulate the market. Prices reached 26 1/2. They were Owen County goods and very fine. The feeling remained strong during the entire week, with possibly a little easier bidding toward the close on Friday.

The breaks were light, and it is hardly probable that they will be much heavier in the next week, because the present soft spell of weather is rushing deliveries in the country and keeping people busy receiving, so that we may look for a continuance of moderate offerings, and, we hope, of full prices.

Our solicitations to our friends with reference to careful and uniform packing have worked much good, and the effect of the same has no little share in the encouraging improvement in our market. The buyers have taken note of the matter, and there is evidence on their part of improved confidence, and on this, after all, the success of the market principally depends.

It is generally reported that the preparations for the new crop are larger than ever, a fact which should not be overlooked on the part of our friends, while we think that everything points to a good, healthy market during the year, a large, coming yield, when once assured, will tend to bear out prices.

Our offerings during the week were 1,034 hhds; rejections, 28 hhds; actual sales, 1,016 hhds; receipts 759 hhds.

LOUISVILLE TOBACCO MARKET.

Furnished by Glover & Durrett, Louisville Tobacco Warehouse.

Sales on our market for the week just closed amount to 2,399 hhds, with receipts for the same period of 1,638 hhds. Sales on our market since January 1st, amount to 53,048 hhds. Sales of the crop of 1892 on our market to this date amount to 27,794 hhds.

There is no change to report in the market conditions for burley tobacco this week; receipts and offerings have been comparatively light and prices fully maintained for all grades.

He wears a full brown beard, and bright and pleasant eyes look from beneath the curving brim of his silk hat. He represents Munson and Lewis counties in the Senate and has made the race as the Democratic nominee for Congress. His course in the General Assembly has been such as to mark him as a man of a high order of ability. He is authority for the statement that the present Legislature means to remove the Capital from Frankfort. Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well-informed, you will not accept any substitute if offered.
